Your strong back partner....

Wireless Commander Echo Grip is the fastest, most versatile portable grip testing system for hand strength testing or voluntary maximal effort evaluations.

Advanced Features

- ▶ Performs 5-position, rapid exchange and sustained grip tests
- ▶ Displays maximum force, CV, right and left average force and bilateral deficit
- ▶ Evaluate voluntary maximal effort
- ▶ Establish baselines and monitor progress
- ▶ Adjustable test time with fatigue calculation for sustained grip tests
- ▶ Digital load cell technology provides greater reliability and durability than other common gauges
- ▶ Wireless console is independent of the testing device allowing the tester to review data during active testing without influencing the patient's level of effort

*Console required to operate device. Console and device sold separately.
